

How to use the Considera forum

Open up your web browser and go to this address <http://www.considera.org> and then click the 'Forum' word on the left hand side. You'll see something like this but without the blue circles:

The screenshot shows the Considera forum homepage. On the left sidebar, the 'Forum' link is circled in blue. In the top navigation bar, the 'Register' link is also circled in blue. The main content area displays a forum index table with columns for 'Forum', 'Topics', 'Posts', and 'Last Post'. The table lists two forums: 'Planting by the stars' and 'Potentiated peppers'.

Forum	Topics	Posts	Last Post
Planting by the stars Considera wants to assist in the research of 'planting by the stars'. Please limit your input to this discipline in this forum.	10	26	Tue Mar 17, 2009 7:57 am Mark #1
Potentiated peppers This forum is for airing research, impressions, concerns and other related aspects with others interested in minimising weeds and pest issues using homeopathically potentiated peppers and remedies.	9	29	Wed Mar 04, 2009 11:58 am PruNew #2

Click the word **Register** which is highlighted by the blue circle above, and then you'll see something like this.

The screenshot shows the 'Registration Agreement Terms' page. The text outlines the forum's policies and the user's agreement. At the bottom, there are three radio buttons for selecting the user's age group. The first radio button, 'I agree to these terms and am over or exactly 13 years of age', is circled in blue.

I agree to these terms and am over or exactly 13 years of age
 I agree to these terms and am under 13 years of age
 I do not agree to these terms

Click the 'I agree ...' statement as highlighted above. Assuming you do agree of course. Then you will see this

Profile Information - suggestion: ignore all this and hit SUBMIT below!

If you fill these in it will be publicly viewable

ICQ Number:

In **Username** put anything you want to be known as on the discussion forum. I have used my first name, others their whole name, yet others a pseudonym – it's up to you but you'll need it later so remember it.

Email address – use your email address and type it accurately please.

Password – choose something and again make a note of it

Confirm Password – just what you wrote above

Confirmation code – copy the writing above. In the case shown, type in **I6Q9N9**. It will be different each time.

Below is a strange question that is designed to fool computer-literate pornographers and hoodlums. In this instance it asks “**How many letters in the word ‘cat’?**” – you would type **three** or **3**. Again the question varies.

Then I strongly suggest you scroll to the bottom of the page and hit **SUBMIT** but if you want you can fiddle around with the strange bits in between. Once you hit **SUBMIT** you should get this (If not try again.)

Again to fool the vandals, there is the above step to make sure all is right. Go to your email programme and download any emails. Usually within a few minutes an activation email will be sent to the email address you put in above from Considera. It will look somewhat like this if you chose the name and password 'zebedee'.

Click the blue writing and it will take you back to your browser and you'll see something like this:

Now click **Log in** which is encircled above.

You can now use all of these different forums. To learn how to use them I would just move the cursor around and click on anything that changes colour and grabs your fancy. You can't break anything so feel free to play. If in doubt click FAQ as above – it stands for Frequently Asked Questions and is exactly what it says it is.

Good luck and thanks.
